

Hamza Idrissi Meliani

Engineering Student – Mathematics & Systems Engineering | EHTP, Casablanca

+212 644 378 492 · hamzaidrissimeliani@gmail.com · github.com/HamzaIDM · linkedin.com/in/hamza-idrissi-meliani · Casablanca, Morocco

PROFILE SUMMARY

First-year Engineering student at EHTP, passionate about bridging mathematical theory and data-driven solutions. I thrive on challenges requiring both rigorous algorithmic thinking and the creativity to make insights visible. Seeking a summer 2026 internship in Data Science, AI, or Optimization to contribute a strong foundation in Python, C, and data analysis while learning from experienced teams.

EDUCATION

Engineer's Degree – Mathematics & Systems Engineering	2025 – 2028
<i>École Hassania des Travaux Publics (EHTP) — Casablanca, Morocco</i>	
DEUST – Mathematics, Computer Science & Physics (MIP)	2023 – 2025
<i>Faculté des Sciences et Techniques de Fès (FST) — Fès, Morocco</i>	
Baccalaureate – Physical Sciences, French Option	2020 – 2023
<i>Lycée Qualifiant Abdelkrim Erraiss — Fès, Morocco</i>	

PROJECTS

Nine Men's Morris – AI Strategy Game Engine	Feb 2026 – Mar 2026
<i>EHTP – Advanced Algorithmics & Game Theory · github.com/HamzaIDM/JeuDeMoulin</i>	
■ Built a complete game engine in C with full rule enforcement (placement, movement, mill detection, capture) and real-time ASCII rendering. ■ Implemented an AI opponent using Minimax with Alpha-Beta pruning; modular architecture: board representation, state machine, rule engine.	
Consumer Behavior Analysis – Data Analyst Project	Mar 2026
<i>EHTP · github.com/HamzaIDM/customer-shopping-behavior-analysis</i>	
■ Analyzed shopping behavior of 3,900 customers with Python & Pandas; queried revenue, loyalty & seasonality with MySQL. ■ Built an interactive Power BI dashboard to communicate findings to non-technical stakeholders.	

TECHNICAL SKILLS

Languages Python · C · C++ · SQL / MySQL · MATLAB

AI & Data Science NumPy · Pandas · Matplotlib · Jupyter · Power BI · Minimax / Alpha-Beta Pruning

Math & Algorithms Data Structures · Game Theory · Optimization & Decision Making · Statistical Modeling

DevOps & Tools Git · GitHub · Linux / Unix Shell · Version Control · Arduino / Wokwi · VS Code · Microsoft Office

CERTIFICATIONS

- Tools of the Trade: Linux & SQL — Google · Mar 2026
- Getting Started with Git and GitHub — IBM · Dec 2025
- Python for Data Science, AI & Development — IBM · Nov 2025

EXTRACURRICULAR & VOLUNTEERING

Events Cell Member – Hassania IT Club (H.I.T.C), EHTP	Oct 2025 – Present
■ Organized coding competitions & workshops; coordinated with external speakers and bridged students with industry professionals.	
Training Team Member – Hassania Junior Entreprise (HJE), EHTP	Oct 2025 – Present
■ Identified training topics and connected students with professional trainers for educational workshops.	

LANGUAGES & SOFT SKILLS

Arabic Full Professional Proficiency	■ Analytical problem-solving & mathematical rigor
English Limited Working Proficiency	■ Team collaboration & leadership
French Limited Working Proficiency	■ Autonomy & fast self-learning
	■ Attention to detail & structured thinking
	■ Event organization & clear communication
